What is a "Diversification" Summit?

Manufacturers from around the state are invited to hear from industry experts in four emerging sectors who will provide information on diversifying manufacturing and opportunities for your business.

Companies that attend the summit will be asked to complete a comprehensive questionnaire. Those that demonstrate the potential to diversify, as determined by sector service providers, will receive a **\$10,000** matching grant from the Economic Development Job Training program to assist in the diversification process.

To register, visit:
